¹ Percent change in number of pending sales this year compared to last year. The Current Month section compares December 2022 with December 2021. The Year-To-Date section compares 2022 Year-To-Date statistics through December with 2021 Year-To-Date statistics through December.

² % Change is based on a comparison of the rolling average sale price for the last 12 months (01/1/22-12/31/22) with 12 months before (01/01/21-12/31/21).

³ Total Market Time is the number of days from when a property is listed to when an offer is accepted on that same property. If a property is re-listed within 31 days, Total Market Time continues to accrue; however, it does not include the time that it was off the market.

* Active Listings reported in Market Action include three statuses (ACT, BMP, SSP). Two of these statuses are defined as listings with accepted offers that are still marketed as active listings due to the type of offer on the property. These are Bumpable Buyer, which is an offer that is contingent on the sale of the buyer’s current home, and Short Sale Pending, where an offer has been accepted by the seller but the required third party approvals have not been obtained.
