

# THE HOTTEST DESIGN TRENDS FOR 2023

Design experts say homeowners are now leaning into a warm, refined and luxe elegance with an emphasis on natural materials. Here are some of the year's hottest trends you may want to incorporate throughout your own home.

## KITCHEN

Space for cooking or baking that can be repurposed as a dining room, study or home office area.

Wood finishes for cabinets and islands.

Countertops made from materials such as marble, granite and onyx.

Statement lighting such as dramatic pendant lights.

## KIDS' BEDROOMS

Color-saturated paint and wallpaper.

Creative bunk beds.

Interactive walls kids can draw or paint on.

Designated study nooks.

Fun chairs suspended from ceiling hooks.

## LIVING ROOM

Warm, sophisticated and saturated colors.

Curved sofas and accent chairs.

Ambient lighting with multiple settings.

Painted ceilings.

Medium to dark tone wood finishes for furniture and flooring.

## BATHROOMS

Steam showers.

Slab shower walls.

Chrome and brushed nickel finishes.

White vanity cabinets with quartz countertops.

Outlets in vanity drawers.

## BEDROOM

Textured materials for bedding, rugs and drapes.

Mixed patterns.

Color drenching throughout the room.

Decorative sconces for lighting.

## HOME OFFICE

Statement wallpaper.

Monochromatic walls.

Floating shelves.

Secondhand and upcycled desks and storage.

Smaller desks.

Designers also suggest integrating vintage pieces such as rugs, furniture and accessories into your decor. It's a great way to preserve a bit of history and be eco-conscious at the same time.
