AFFORDABILITY - The Affordability Index is updated quarterly. According to a formula from the National Association of REALTORS®, buying a house in the Portland Metro area is affordable for a family earning the median income. A family earning the median income (\$114,434 in 2023, per HUD) can afford 84% of a monthly mortgage payment on a median priced home (\$559,900 in June). The formula assumes that the buyer has a 20% down payment and a 30-year fixed rate of 6.51% (per Freddie Mac).

Active Listings Ready for Purchase and Occupancy

Since this region has a higher proportion of active residential listings that are either not ready for purchase or not yet under construction, these figures represent active listings that are ready for purchase and occupancy.

¹ Percent change in number of pending sales this year compared to last year. The Current Month section compares August 2023 with August 2022. The year-to-date section compares 2023 year-to-date statistics through August with 2022 year-to-date statistics through August.

² % Change is based on a comparison of the rolling average sale price for the last 12 months (8/1/22-7/31/23) with 12 months before (8/1/21-7/31/21).

³ Total Market Time is the number of days from when a property is listed to when an offer is accepted on that same property. If a property is re-listed within 31 days, Total Market Time continues to accrue; however, it does not include the time that it was off the market.

Definitions and Formulas

Additional Resources

Inventory in Months:

Calculated by dividing the Active Residential listing counts at the end of the month in question by the number of Closed Sales for that month. This includes Proposed and Under Construction properties.

Area Report — Pending Sales % Change:

In the Area Report, the Pending Sales percentages indicate the percent change between the number of Pending Sales this year compared to the previous year.

Area Report — Current Month:

The current month section of the Area Report compares the current month with the corresponding month from the previous year (example: July 2022 vs July 2021).

Area Report — Year-To-Date:

This section compares current Year-To-Date statistics through the current month with the previous year's Year-To-Date statistics through the corresponding month of the previous year (example: Jan 2021-July 2021 vs Jan 2022-July 2022).

% Change:

This calculation is based on the comparison of the rolling Average Sale Price for the last 12 months with the previous 12 months (example: 8/1/21-7/31/22 vs 8/1/20-7/31/21).

Total Market Time:

This is the number of days from when a property is listed to when an offer is accepted on that same property. If a property is re-listed within 31 days, Total Market Time continues to accrue; however, it does not include the time that it was off the market.

Affordability:

This is the percentage of a monthly mortgage payment that a family earning a median income can afford. The formula assumes that the buyer has a 20% down payment and a 30-year fixed percentage rate as set by Freddie Mac at the time of publication.

Active Listings:

The Active Listings in the Market Action report include three statuses (ACT, BMP, SSP). Two of these statuses are defined as listings with accepted offers that are still marketed as Active Listings due to the type of offer on the property. These are Bumpable Buyer, which is an offer that is contingent on the sale of the buyer's current home, and Short Sale Pending, where an offer has been accepted by the seller, but the required third-party approvals have not been obtained.
